

**SETTING LIMITS WITH YOUR  
STRONG-WILLED CHILD**

**ELIMINATING CONFLICT BY ESTABLISHING CLEAR,  
FIRM, AND RESPECTFUL BOUNDARIES**

**BY ROBERT J. MACKENZIE, ED.D.**

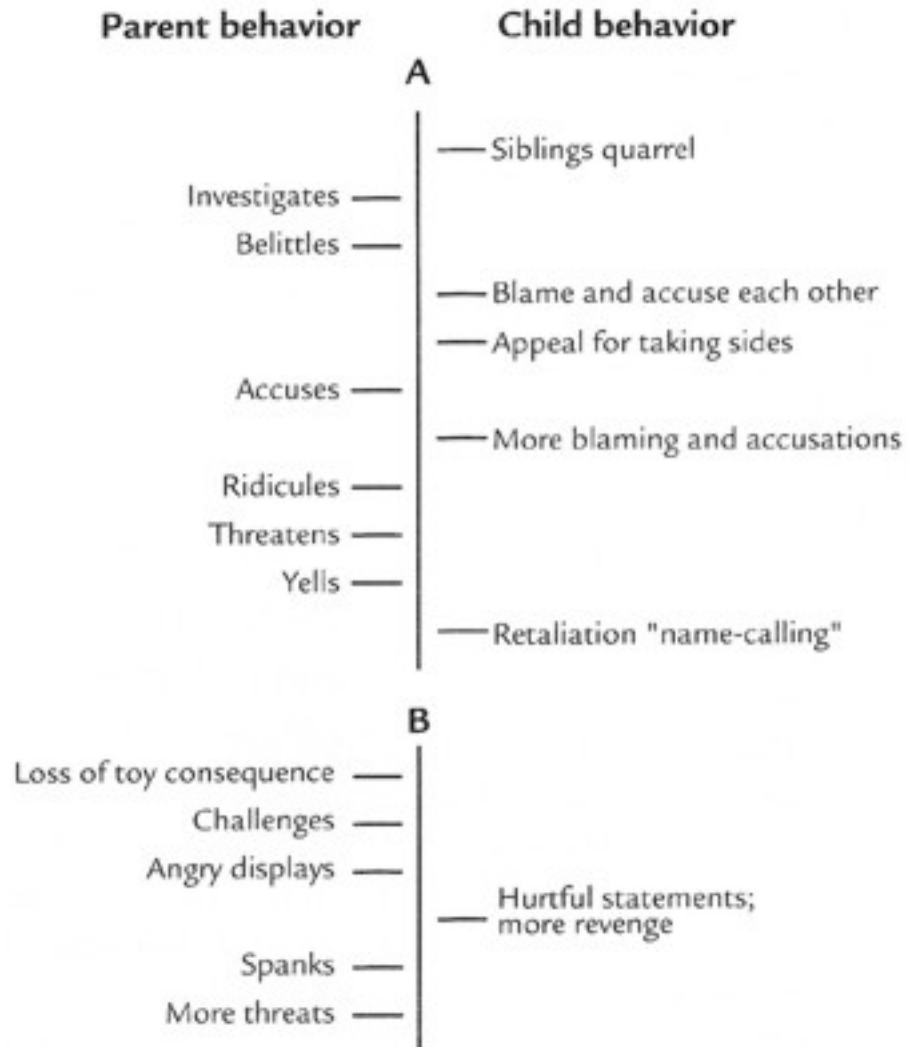

**Table 1**

**Your Child's Temperament Profile**

Temperament Characteristic	Easy to Manage	—————→	Difficult to Manage
Negative Persistence	Low	Moderate	High
Intensity	Low	Moderate	High
Regularity	Regular	Variable	Irregular
Distractibility	Low	Moderate	High
Energy/ Activity Level	Low	Moderate	High
Sensitivity	Mild	Moderate	Extreme
Adaptability	Low	Moderate	High
Reactivity	Low	Moderate	High
Mood	Mild	Moderate	Extreme

Figure 3.1

Diagram of a Punitive Interaction

**Table 2**

**The Autocratic or Punitive Approach**

<b>Parents' beliefs</b>	If it doesn't hurt, children won't learn. Children won't respect my rules unless they fear my methods. It's my job to control my children. It's my job to solve my children's problems.
<b>Power and control</b>	All for parents.
<b>Problem-solving process</b>	Problem solving by force. Adversarial. Win-lose (parents win). Parents do all the problem solving and make all the decisions. Parents direct and control the process.
<b>What children learn</b>	Parents are responsible for solving children's problems. Hurtful methods of communication and problem solving.
<b>How children respond</b>	Anger, stubbornness, revenge, rebellion, withdrawal, fearful submission.

Figure 3.2

Diagram of a Permissive Interaction

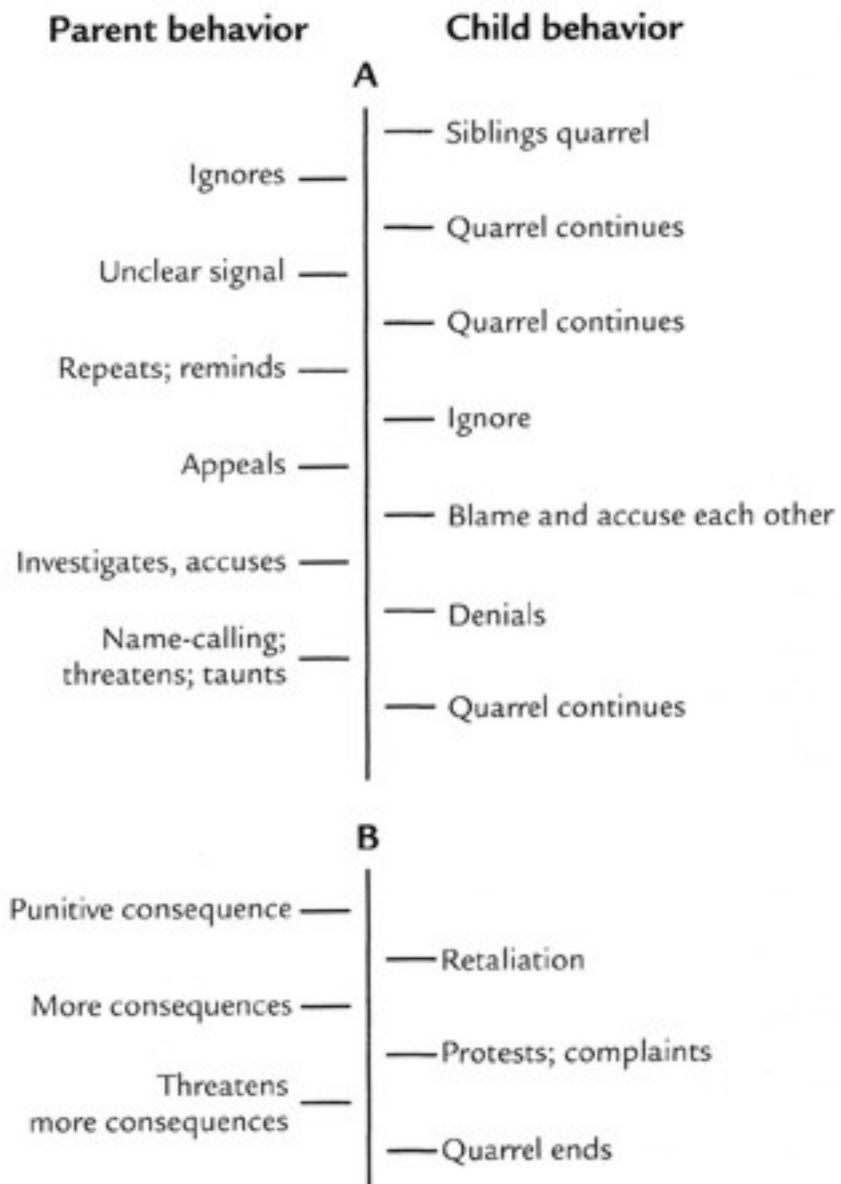

**Table 3**  
**The Permissive Approach**

<b>Parents' beliefs</b>	Children will cooperate when they understand that cooperation is the right thing to do.
<b>Power and control</b>	All for children.
<b>Problem-solving process</b>	Problem solving by persuasion. Win-lose (children win). Parents do most of the problem solving.
<b>What children learn</b>	Rules are for others, not me. I do as I wish. Parents serve children. Parents are responsible for solving children's problems. Dependency, disrespect, self-centeredness.
<b>How children respond</b>	Limit testing. Challenge and defy rules and authority. Ignore and tune out words. Wear parents down with words.

Figure 3.3

Diagram of a Mixed Interaction

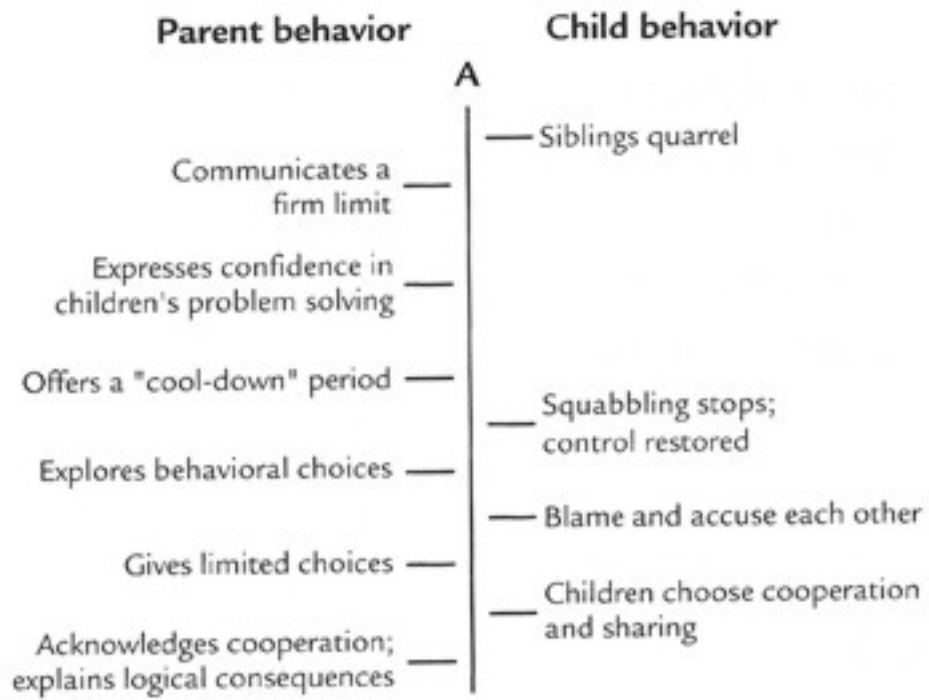

**Table 4**  
**The Democratic Approach**

<b>Parents' beliefs</b>	<p>Children are capable of solving problems on their own.</p> <p>Children should be given choices and allowed to learn from their choices.</p> <p>Encouragement is an effective way to motivate cooperation.</p>
<b>Power and control</b>	<p>Children are given only as much power and control as they can handle responsibly.</p>
<b>Problem-solving process</b>	<p>Cooperative.</p> <p>Win-win.</p> <p>Based on mutual respect.</p> <p>Children are active participants in the problem-solving process.</p>
<b>What children learn</b>	<p>Responsibility.</p> <p>Cooperation.</p> <p>Independence.</p> <p>Respect for rules and authority.</p> <p>Self-control.</p>
<b>How children respond</b>	<p>More cooperation.</p> <p>Less limit testing.</p> <p>Resolve problems on their own.</p> <p>Regard parents' words seriously.</p>

Figure 3.4

Diagram of a Democratic Interaction

**Table 5**  
**Comparison of Firm and Soft Limits**

	Firm Limits	Soft Limits
<b>Characteristics</b>	<p>Stated in clear, direct, concrete behavioral terms.</p> <p>Words supported by actions.</p> <p>Compliance expected and required.</p> <p>Provide information needed to make acceptable choices and cooperate.</p> <p>Provide accountability.</p>	<p>Stated in unclear terms or as "mixed messages."</p> <p>Actions do not support intended rule.</p> <p>Compliance optional, not required.</p> <p>Do not provide information needed to make acceptable choices.</p> <p>Lack of accountability.</p>
<b>Predictable outcomes</b>	<p>Cooperation.</p> <p>Decreased limit testing.</p> <p>Clear understanding of rules and expectations.</p> <p>Regard parents' words seriously.</p>	<p>Resistance.</p> <p>Increased limit testing.</p> <p>Escalating misbehavior, power struggles.</p> <p>Ignore and tune out parents' words.</p>
<b>Children learn</b>	<p>No means no.</p> <p>I'm expected and required to follow the rules.</p> <p>Rules apply to me like everyone else.</p> <p>I am responsible for my own behavior.</p> <p>Adults mean what they say.</p>	<p>No means yes, sometimes, or maybe.</p> <p>I'm not expected to follow rules.</p> <p>Rules are made for others, not me.</p> <p>I make my own rules and do what I want.</p> <p>Adults don't mean what they say.</p> <p>Adults are responsible for my behavior.</p>

**Table 6**

**Positive Versus Negative Approaches to Motivation**

<u>Encouraging Messages</u>	<u>Discouraging Messages</u>
Inspire cooperation	Inspire resistance, retaliation
Motivate and empower	Discourage and humiliate
Convey respect, confidence, support	Diminish, blame, reject
Create cooperative relationships	Create adversarial relationships
Meet needs for belonging, competence, self-worth	Perceived as personal attack
Focus on choices and behavior	Focus on child's worth and capabilities

**Appendix Table 1**  
**Getting Started with Two-Year-Olds**

---

<b>Week 1</b>	
Clear verbal messages	Chapter 6
Encouraging messages	Chapter 9
Role-modeling	Chapter 10
Logical consequences	Chapter 8

---

<b>Week 3 or 4</b>	
Add "try it again"	Chapter 10

---

<b>Week 6 or 7</b>	
Add limited choices	Chapter 7

---

## Appendix Table 2

### Getting Started with Three- to Seven-Year-Olds

---

<b>Week 1</b>	
Clear verbal messages	Chapter 6
Check-in, cutoff, cool-down (select methods needed)	Chapter 7
Encouraging messages	Chapter 9
Logical consequences, time-out	Chapter 8

---

<b>Week 3 or 4</b>	
Add "try it again"	Chapter 10
Using timers	Chapter 7

---

<b>Week 6 or 8</b>	
Add natural consequences	Chapter 8
Add limited choices	Chapter 7

---

<b>Week 10 or 12</b>	
Add role-modeling	Chapter 10
Add exploring choices	Chapter 10

---

**Appendix Table 3.**

**Getting Started with Eight- to Twelve-Year-Olds**

---

<b>Week 1</b>	
Clear verbal messages	Chapter 6
Check-in, cutoff, cool-down (select methods needed)	Chapter 7
Using timers	Chapter 7
Encouraging messages	Chapter 9
Logical consequences	Chapter 8
Time-out procedure	Chapter 8

---

<b>Week 4 or 5</b>	
Add role-modeling	Chapter 10
Add “try it again”	Chapter 10

---

<b>Week 6 or 8</b>	
Add limited choices	Chapter 7

---

<b>Week 10 or 12</b>	
Add exploring choices	Chapter 10
Add natural consequences	Chapter 8

---
